

Beijing 2008 Olympic Games

IBC Equipment for ARD and ZDF from a Single Source

Project Description: When it comes to major sports events, broadcasters need a large amount of media-related equipment quickly and for a short period of time. As technical partner to German public broadcasters, we supplied ARD and ZDF with extensive rental technology for the Olympic Games in Beijing. Our tailor-made solutions ensured the perfect complement to the equipment ARD and ZDF already used for broadcasting the event.

Olympic stadium, Beijing

Sony video mixer

Audio and video inputs

Riedel intercom system

Audio mixer

VTRs

Ulrich A. Maslak, Project Leader Wellen+Nöthen: *"To be part of the 'Olympic Family' was a great honor for us. We saw that as a reinforcement of our commitment to providing broadcasters with state-of-the-art rental technology, so that TV viewers can experience sport events in a very realistic way."*
